

Dark floors

Premium planks and pattern designs

Dark wood floors create a solid base. They bring a sense of sophistication and richness to the interior. They never seem to go out of fashion; they are always trendy and in style. The contrast between dark wood floors and bright, light walls for many people epitomizes a sophisticated and upmarket style. Our dark floors come in many designs and surface treatments.

For years, clever interior designers have been choosing our dark wood floors as it can help to hide dirt and dust better than lighter-colored floors, which can make them a good choice for high-traffic areas like entryways or hallways.
