

Technical Information EGGER Skirtings

1. Product Information

EGGER – foiled skirtings with MDF core board

Melamine/ Urea resin
impregnated decor paper

MDF- core board

2. General Requirements

Characteristics	Test Method	Unit	Skirtings			
Surface			Melamine / Urea resin impregnated decor paper			
Core board			MDF			
Dimension						
Length x Width x Height		mm	2400 x 18,5 x 40	2400 x 17 x 60	2400 x 15 x 80	2400 x 16,5 x 16,5
Skirtings per box						
Number of pieces		piece	10	10	5	12
Running meter per box						
Skirtings in total		meter	24	24	12	28,8
Weight per skirtings						
Approx.		kg	0,56	1,0	1,50	0,30
Weight per box						
Approx.		kg	5,65	10,08	7,55	3,6

The tolerances for cross section dimensions, longitudinal dimensions as well as for deformation and curve correspond to RAL-RG 432.

Characteristics	Skirtings	Test Method
Formaldehyde Emission	E 1	EN 120
Light fastness	Stufe 7	EN 20105
Disposal		
Waste disposal	recyclable	
Disposal	Incinerator / dump	

We confirm that no coatings, paints, lacquers and adhesives with organic solvents are used in our skirtings (foil-covered MDF core boards) neither in the pre-products nor in the manufacturing process. Also no materials with biocides, softeners and free formaldehyde are used.

Storage condition:

- **Storage: vertical or horizontal on even and stable ground**
- **Protect against direct sun exposure and humidity**
- **Climate storage condition : temperature approx. 18°C, air humidity 55-70%**
